- Hands on experience of NumPy, Pandas, Matplotlib;
- Basics of Data Analysis, ML, Image Recognition, etc.;
- Adobe Illustrator, Adobe Photoshop, Adobe Xd, Figma;

💼 EXPERIENCE

Software Engineer | Tiger Park Limited, Dhaka, Bangladesh
SEPTEMBER 2021 – TILL NOW

Working as a Software Engineer (Full-Stack Web Developer) with Python, Django, DRF, JavaScript, Vue.js, and other technologies in the core development team. So far, I have worked on three projects/products in TPL. They are:

- **Residential School Management System:** Built a few modules and improved some others. Fixed and improved UI & UX. Worked with Python, Django, HTML, CSS, Bootstrap.
- **Schedule/Meeting Management System:** A Meeting Management System where user can schedule their meeting clicking on a calendar with relevant information and see them on a calendar. Used Python, Django, JavaScript and few JavaScript Libraries. Done by me with occasional guidance of seniors.
- **Project Monitoring System:** A system for monitoring work progress of various task in a project with active reporting system. Reports are created (in web and through API) with unit value (predefined in task), image/document/video and other relevant information and progresses are calculated automatically upon approval from various Roles. This system also has an issue handling module with dynamically created categories. Used Python, Django, JavaScript, jQuery, AJAX, and few JavaScript Libraries. Most parts are done by me and have lead others.

🎓 EDUCATION

B.Sc. in CSE | Manarat International University, Dhaka, Bangladesh
JANUARY 2015 – AUGUST 2019
CGPA: 3.57 (out of 4.00).

☰ WORKS

- Star Social: Social Media Platform with basic functionality like posting, create group etc. See on GitHub.
- AskRubayet: A personalized web application where user can ask questions and get answers. Please see here.
